CHAMPLAIN LHIN

Population served 1, 176, 600

Known Hospital Reductions Since 2008

- *Cornwall Community Hospital (Cornwall)*: reduced their in-patient rehabilitation department from 22 beds to 10 in 2010, and closed its out-patient physiotherapy clinic (1 FTE) effective February 1st, 2011.
- *Queensway Carleton Hospital*: had a reduction of in-patient rehabilitation beds, but no reduction in staff as the rehabilitation beds were turned into Transition to Home Beds.
- *Renfrew Victoria Hospital*: decreased out-patient services from 40% to 20% in 2008, and approximately only 5-10% of out-patients are seen due to increased turn-over of in-patients. Due to staffing issues, senior physiotherapists have administrative duties including payroll hour reports. Out-patient wait list is currently limited to total knee group, lymphedema and simple fracture/1 visit sessions.
- *Deep River and District Hospital*: Closed outpatient rehabilitation in 2008. Nearest hospital providing rehabilitation for hip and knee replacement is over 50 km away.
- *Hawkesbury and District General Hospital*: reduction of 3 physiotherapists who were not replaced after maternity and sick leave.
- *Arnprior and District Memorial Hospital*: reduced outpatient physiotherapy from 2.5 to 1.5 FTE.
- *St. Francis Memorial Hospital*: 1 FTE physiotherapist not replaced after maternity leave.
- *Glengarry Memorial Hospital*: outpatient rehabilitation clinic hours were reduced from 3 days per week to 2 days per week.
- *Ottawa Hospital*:
 - Outpatients (2009): Decrease of 0.5 FTE PT.
 - Outpatients (2012): Decrease of 1.35 FTE PT.
 - Rehabilitation Centre (2011): Decrease of 0.2 FTE PT relief budget
 - Rehabilitation Centre (2012): Decrease of 0.5 FTE PT.
 - Rehabilitation Centre (2012): Decrease of 1.0 FTE PTA.
 - Acute Care (2012): Decrease of 2.2 FTE PT.

HAMILTON NIAGARA HALDIMAND BRANT LHIN

Population served 1, 352, 500

Known Hospital Reductions Since 2008

- *Joseph Brant Memorial Hospital (Burlington)*: closed its out-patient physiotherapy clinic on March 30th, 2009.
- *Brant Community Healthcare System, Brantford General Hospital*: In June 2010, reduced FTEs in general outpatient physiotherapy, cut physiotherapy services in hand therapy program, reduced cardiac rehab physiotherapy by half and neuro physiotherapy by one third. Outpatient physiotherapy now only sees surgical and specialist referrals.
- *Niagara Health System (St Catherine’s site)*: closed their out-patient physiotherapy clinic in 2009.
- *Hamilton Health Sciences (Specifically Regional Rehabilitation Centre)*: reduced outpatient physiotherapy by 0.6 FTE in 2010.

Population served 645,200

Known Hospital Reductions Since 2008

- *Leamington District Memorial Hospital:* closed out-patient physiotherapy clinic, a total of 6 rehabilitation beds, on March 23rd, 2009.
- *Windsor Regional Hospital:* A staffing level of 4.0 FTE PT in out-patient ortho was reduced to 1.0 over the period of several years. The most recent reduction occurred in June 2010, with a reduction of 0.5 FTE, resulting in only 1.0 FTE PT remaining. In a city which once had 4 hospital based out-patient departments there is now 1.

NORTH SIMCOE MUSKOKA LHIN

Population served 416, 900

Known Hospital Reductions Pre/Post 2008

- *Orillia Soldier's Memorial Hospital (Orillia)*: closed its out-patient physiotherapy clinic (with the loss of 1.0 FTE PT and 0.8 FTE PTA) in early 2011, however, select post-operative patients are still served.
- *Georgian Bay General Hospital*: Prior to 2010, out-patient physiotherapy was reduced from 5 days per week to 1 day per week. Day Hospital program has been phased out.
- *Royal Victoria Regional Health Centre*: prior to 2008 there were significant reductions in out-patient services;
 - Barrie Arthritis Program no longer exists (decreased 1.0 FTE PT, 1.0 RA). o Out-patient hand department was reduced from 2.5 FTE (OT/PT) and is now 2.0 FTE.
 - Out-patient physiotherapy department was staffed at 4.8 FTE (PT) and 1.2 FTE (RA) and now is 1.7 FTE (PT) and 0.8 FTE (RA).
 - The pool program used to run with a 0.5 FTE (PT) and 0.5 FTE (RA) and now is reduced to
 - 0.2 FTE (PT) and no RA.

-------------------------------------	---------	--------------

NORTH WEST LHIN

Population served 242,500

Known Hospital Reductions

- *Riverside Health Care - LaVerendrye Hospital (Fort Frances)*: reduced from 3.5 to 2.5 FTE physiotherapists by not replacing a maternity leave.
- *The McCausland Hospital*: In May, 2011, there was the addition of a 22 bed long term care wing, however there was no staffing increase to accommodate for the additional workload. Staffing is therefore pulled from out-patient service leading to a de facto reduction.
- *Wilson Memorial Hospital*: in 2001 there was a reduction of 2 FTE PT and within the last 7 years it has been further reduced resulting in only 1.0 FTE PT.
- *Lake of the Woods District Hospital*:
 - 1994: reduction of 2 FTE physiotherapy support staff.
 - 1995: reduction of 1 FTE PT.
 - 2008: Further reduction of .5 FTE PT resulting in a total of OP physiotherapist provision of .4 FTE for a community of over 15,000 people.
- *Meno Ya Win Health Centre (Sioux Lookout)*: Over the last 5 years, 2 FTE PT have been cut. The Health Centre only serves the in-patient unit (however there are some out-patient services for staff members or those with hand injuries).
- *Margaret Cocheneur Memorial Hospital*: cut 1 FTE PT in the past 5 years, has 1 FTE PT left for in- patient and out-patient services (out-patient only sees select post-op cases).
- Please note that in the North West LHIN there are no CPCs, and therefore in some areas the population has no option but to go completely without care. There is also limited access to private physiotherapy clinics in these communities.

Known Hospital Reductions Since 2008

- *Alexandra Hospital (Ingersoll):* reduction of 0.2 FTE in outpatient physiotherapy.
- *Grey Bruce Health Services:*
 - Owen Sound: lost 1.0 FTE PT from its Medical Program in 2010.
 - Meaford: reduced hours from 109.5/wk to 90/wk (a loss of 0.5 FTE) in outpatient physiotherapy.
- Southampton: reduced outpatient PT to 1 FTE in 2006.
- *London Health Sciences Centre:*
 - University Hospital: reduced outpatient physiotherapy by 0.6 FTE.
 - Victoria Hospital: reduced outpatient physiotherapy by 1.0 FTE.
- *Middlesex Health Alliance (Strathroy Site):* reduced outpatient physiotherapy by 1 FTE and lost another to maternity leave which hasn't been replaced.
- *South Bruce Grey Health Centre:* closed out-patient physiotherapy clinics in Kincardine, Walkerton, Chesley and Durham.
- *South Huron Hospital Association (Exeter):* After initial announcement for closure resulted in public and physician expressing concern, they opted to reduced outpatient physiotherapy to three days per week in 2011. Limited to select conditions and d/c from CCAC for surgeries, fractures and stroke.
- *Stratford General Hospital (Stratford):* Proposed in April 2012 to consolidate 4 adult out patient physiotherapy clinics into 2 by June 2012.
- *St. Joseph's Health Care (London):* Reduced outpatient physiotherapy by 1.0 FTE in 2010 resulting in a growing waiting list (over 15 months) for community referrals.

- *Tillsonburg District Memorial Hospital*: no outpatient physiotherapy services; only hospital staff are seen and treated
- *Woodstock General Hospital*: reduced outpatient physiotherapy by 1.6 FTE.

Known Hospital Reductions Since 2008

- Centre for Addiction and Mental Health: closed its in-patients and out-patients physiotherapy services August, 2012.
- St Joseph's Health Centre in Toronto: closed its out-patient (Pain and Cardiac) rehabilitation clinic on April 1, 2010.
- Toronto East General Hospital closed its out-patient physiotherapy clinic on April 1, 2010.
- Sunnybrook Health Sciences Centre (Toronto): cut its Musculoskeletal (Orthopaedic) Ambulatory Rehabilitation services on July 1st, 2008. As of March 1, 2012 privatized their vestibular, facial and hand programs.
- Women's College Hospital (Toronto): closed its out-patient musculoskeletal department (1 FTE) on May 24th, 2011.
- North York General Hospital (NYGH): closed its out-patient physiotherapy on June 30th, 2010, affecting 4.5 FTE. NYGH kept running their sports medicine clinic after June 30th, 2012 until March 30th, 2011 at a reduced physiotherapy position of 5 hours/week. NYGH has kept their knee classes for post-op TKA patients only. This was a 0.4 FTE position starting mid July 2010 and went to 0.6 FTE in December 2011. It is still currently operating at 0.6 FTE.

- *St. Michael's Hospital*: reduced their out-patient physiotherapy program by 2.0 FTE's in 2012. This program supported both Family Practice Program and complex MSK population. It has resulted in a decrease of approximately 7000 physiotherapy visits per year.
- *Mount Sinai Hospital*: closed their out-patient physiotherapy services in 2009. This closure resulted in the loss of approximately 4.0 FTE PT and 1.0 PTA.
- *UHN (Toronto General Hospital, Princess Margaret Hospital)*: had a reduction of .4 FTE PT in the Home Peritoneal Dialysis Unit in 2009 - 2010
